2014 – 2017

Prevention and safety assistant

IND, Fleurus
2013 - 2014

High Secondary Education Certificate

Audio Visual, GPH
2004 - 2012

Experience

Trainee - Microsoft Innovation Center (February 2017 to May 2017)

With a colleague, we created an **ASP MVC 5** and **JavaScript** website in order to handle neural problem networks. Though very challenging, this project was incredibly interesting. We used the **Vis Js JavaScript** library to manage networks. **SCRUM** and **Azure** were also used. It was very helpful to maximize our value.

Student - Express Desk (Summer 2016)

It was a two-month-summer-job. The aim was to develop a group management software. After that, I've developed a kind of query builder in **ASP**. The aim was to ease people from a company to facilitate the way they analyze their outcomes without any knowledge of **SQL**.

Student - Sportswear Seller (Summer 2016)

This experience allowed me to meet persons and to **improve my soft skills**. Indeed, I have done this job in order to work in a team and to **share my knowledge** about sport. This is an important thing to me.

Key Skills

Programming languages

Ajax
ASP (MVC)
C#, WPF
Java
JavaScript
jQuery
JEE
PHP
SQL, PL SQL
UML

Software

Access
Android Studio
Azure
DB-Main
Eclipse
Scrum
Star UML
SQL Server
Virtual Box, VMware
Visual Studio
Windows Server

Languages

English
French

Miscellaneous

Hobbies

Before being a coder, I have been a big fan of cycling since I was 17 years old. Biking is one of my favorite hobby. I also like other team sports like football or hockey.

When it is raining, I really love watching documentaries, whatever the subject.
It's a good way to increase his own culture. It is very important to stay aware of our environment.

Other

I am 24 years old, single with a full current driving license with a personal car.
My personal website is available at **moustyadrien.16mb.com** there you can find all of my links to my social networks.
